EXPERIENCE

The Grove Community Engagement Program | Hamden, CT

Fall 2026 – Present

Project Mentor

- Promoted from Project Mentee to Project Mentor after two years in the program, advancing to guide seven first-year students through the development and execution of their Community Experiential Learning Projects
- Mentor students from project planning through execution by providing individualized guidance, leveraging experience from coordinating two university-sponsored projects as a mentee, and connecting students with university resources

Godfather Promotions | New Fairfield, CT

Summer 2024

Intern

- Designed and delivered six custom client commissions using Adobe Creative Suite while supporting digital branding and small-business operations
- Collaborated with clients to fulfill custom design requests, desired standards, and file type requirements, along with team members in the production crew to ensure designs worked within limited resources and machinery capabilities

SELECTED PROJECTS

Analytics & Applied AI Lab Website

Fall 2026

Ongoing Project

- Collaborate with a four-person team to develop an external-facing website showcasing Quinnipiac's Analytics and Applied AI Lab under the direction of an Assistant Professor of Business Analytics and Information Systems
- Develop website features through Agile project management practices using Visual Studio Code, ChatGPT, and Lovable AI, with plans to use GitHub for website hosting and repository management

Reserve QU - Space Reservation Application

Spring 2026

Rapid Application Development Course Project

- Developed a simulated university space reservation application in Google AppSheet for a course project
- Configured the system's database, backend logic, reservation workflows, and user interface while utilizing Claude AI to troubleshoot technical challenges and refine database functionality

ACTIVITIES

Quinnipiac's Girls Who Invest Club

Fall 2025 – Present

Member

- Analyze market behavior and investment opportunities while practicing different risk management strategies, portfolio diversification, and securities trading using Investopedia's simulated trading platform
